🌐 [FerdousRifat](#)

Summary

Motivated CSE final semester undergraduate specializing in MERN stack development. Proven ability to build responsive frontends and scalable backends through hands-on bootcamps at Ostad. Seeking an internship opportunity to apply my coding skills and grow as a professional full-stack developer.

Education

Faizullah High School, Bogura January 2009 - February 2014
Science SSC
5.00

Projects

Pharmacy Management System

• Built a responsive and interactive frontend for a Pharmacy Management System to streamline medical store workflows. • Implemented core modules for managing medication inventory, adding new drugs, tracking stock availability, and calculating sales billing. • Designed a clean, modern user dashboard using Tailwind CSS to display crucial store metrics and drug summaries. • Developed a client-side search feature enabling staff to find specific medicines instantly based on names or categories. • Hosted and deployed the application live on Replit, ensuring optimal load times and real-time frontend interactions.

January 2026 - May 2026

🔗 <https://github.com/FerdousRifat/pharmacy-management-system>

Motivated Computer Science and Engineering student at DIU, passionate about Web Development and Machine Learning. Possess hands-on experience in building interactive frontend applications like a Pharmacy Management System using React.js and Tailwind CSS. Currently expanding skills in the MERN stack and professional Data Science workflows through Ostad platform. A dedicated problem-solver and active tech-club volunteer seeking a web development or software engineering internship to apply technical skills in real-world industry projects.

React.js, Tailwind CSS, JavaScript (ES6), HTML5, CSS3, Vite

References

Md. Manirujjaman

Lecturer, Department Of CSE, Dhaka International University

🔗 manirujjaman.cse@diu.ac

Academic Supervisor and Course Instructor. He has mentored me during my academic projects and closely monitored my progress in core Computer Science courses at Dhaka International University.

Skills

Computer Science Fundamentals

Solid understanding of data structures, algorithms, and logical problem-solving. Comfortable writing clean, efficient code in Python and JavaScript.

Python, JavaScript, Problem Solving, Data Structures, Algorithms, Coding, Logic Building

MERN Stack Developer (JavaScript, React, Node, Express)

Developed full-stack web applications using the MERN ecosystem. Experienced in building responsive frontend UIs with React and integrating secure RESTful APIs with Node.js and Express.

MERN Stack, Frontend, Backend, React.js, Node.js, Express.js, JavaScript, REST API, Web Development

Databases (MongoDB, SQL, MySQL)

Proficient in designing database schemas, managing relational and non-relational data, and executing CRUD operations. Experienced with MongoDB for NoSQL document-based applications and SQL/MySQL for structured query management.

MongoDB, SQL, MySQL, Database Design, NoSQL, Relational Database, CRUD Operations, DBMS

Version Control & Collaboration (Git, GitHub)

Proficient in using Git for source code management and version control. Experienced in collaborating on development projects via GitHub, including managing repositories, tracking issues, branching, and handling merge requests.

Git, GitHub, Version Control, Code Repository, Collaboration, Open Source, Branching, Merge Request

Interests

Exploring Tech Innovation

Emerging Technologies, Artificial Intelligence, Technical Trends, Tech Innovation

Strategic Gaming & Puzzles

Problem Solving Games, Cognitive Skills, Strategic Thinking, Mental Refreshment

Travelling & Exploring

Travelling, Exploring, Cultural Awareness, Stress Management, Networking Travelling, Networking

Languages

Bangla

Native speaker with excellent command of verbal and written communication. Capable of professional collaboration and effective teamwork in local work environments.

English

Confident in professional communication, technical documentation, and writing clean code comments. Capable of reading tech documentation, learning from global resources, and participating in team discussions.
